EDUCATION

Toronto Metropolitan University

Sep. 2025 – Apr. 2030

Bachelor of Science (Honours), Computer Science Co-op

PROJECTS

Portfolio | *React.js, HTML, CSS, Netlify, VS Code*

- Developed and deployed a responsive portfolio website using React.js, HTML, and CSS on Netlify
- Built reusable React components to organize and dynamically render web content
- Implemented responsive layouts to provide a consistent experience across different screen sizes

HabitTracker | *Python, VS Code*

- Built a Python CLI habit tracking application using persistent file-based storage to track sleep, screen time, and weekly tasks
- Designed modular functions for input validation, data parsing, and statistical summaries
- Added exception handling for robust user input processing

Storage-Cleaner | *Java, VS Code, IntelliJ IDEA*

- Designed an object-oriented file management system using inheritance, polymorphism, and abstract classes
- Implemented a deletion scoring algorithm using the Comparable interface to prioritize files for removal
- Utilized PriorityQueue and HashSet to efficiently rank storage candidates and detect duplicate files

PizzaGUI | *Java, VS Code, IntelliJ IDEA*

- Developed an interactive desktop application using Java Swing, enabling users to customize a pizza through a graphical user interface.
- Applied object-oriented design principles to structure UI components and core application logic, improving modularity and maintainability.
- Designed a responsive user interface using Java Swing components including JFrame, JButton, and JLabel.

EXPERIENCE

Crew Member

Aug. 2025 – Sep. 2026

McDonald's

Toronto, ON

- Facilitated excellent safety and workplace standards whilst prioritizing customer satisfaction
- Resolved customer concerns and answered inquiries in a fast-paced environment
- Consistently maintained a clean and comfortable restaurant space for guests and staff

Front Desk Associate

Mar. 2024 – Sep. 2025

Studio North Toronto

Toronto, ON

- Connected with hundreds of clientele and guest staff through Mindbody, a business management software, and optimized costumer experience and performance
- Mitigated and solved any guest conflicts online, inquiries, and concerns through in-person and on-call
- Maximized customer sales through up-selling, and actively connecting with customers
